

ATHENAS

Apparel and Textiles Higher Education

Nurturing Advancement of Sustainability

Purpose of the Posters

- Bring greater attention to STEM related careers in the AT industry.
- Recruit fashion- and STEM-focused students into AT undergraduate programs.
- Communicate the connections between sustainability and STEM knowledge and skills.

We are AT educators, responsible for preparing the next generation of industry professionals. We recognize challenges and opportunities facing our industry and seek solutions and approaches for inclusion in educational programs to meet the needs of a changing industry. The sustainability challenge provides opportunities to rethink our curriculum, enhancing science knowledge and problem-solving capabilities of our students.

How to Use the Posters

- Hang these four posters in your home department.
- Download additional copies of the poster from the ATHENAS website.
- Customize the posters with your school's logo and URL.
- Print as many copies of the posters as needed.
- Share with high school FACS and STEM teachers.

POSTERS FOR RECRUITMENT

About the ATHENAS Web Portal (www.athenas.ksu.edu):

- Provides AT educators professional development modules to enhance understanding of environmental issues and the connection those issues have to the AT industry.
- Provides educational resources for use in the classroom, along with instructor guides.
- Identifies additional external, supporting materials and resources and provides URL links so that educators and students can access them.
- Initial materials focus on climate change. The website content will expand to other environmental issues in the future.

YOU ARE INVITED!

To participate in the pilot test of the professional development materials.

Contact athenas@ksu.edu for more information.
